

Alcohol and Other Drug
Standard of Care Summary
FY 2016

Prepared 9/27/2016

Services Provided

In FY2016 Mid-Ohio Psychological Services saw 518 Adult Clients and 18 Youth Clients who participated in an Alcohol and Other Drug Standard of Care for a total of 527 clients who were treated for substance use problems.

Clients were provided the following services under the AOD SOC (note that clients may have been served under multiple SOC).

Adult Services

	Hours	Price	Revenue
Group	488.75	\$ 40	\$ 19,550
Case Management	882.93	\$ 85	\$ 75,049
Diagnostic Assessment	539.42	\$ 130	\$ 70,125
Formal Evaluation	61.66	\$ 130	\$ 8,016
Individual Counseling	3483.6	\$ 90	\$ 313,524
Total	5456.36		\$ 486,263

The average cost of service to an adult in the AOD program was \$938.73.

Youth Services

	Hours	Price	Revenue
Group	0	\$ 40	\$ -
Case Management	57	\$ 85	\$ 4,845
Diagnostic Assessment	25.78	\$ 130	\$ 3,351
Formal Evaluation	0	\$ 130	\$ -
Individual Counseling	114.11	\$ 90	\$ 10,270
Total	196.89		\$ 18,466

The average cost of service to a youth in the AOD program was \$1,025.89.

During FY2016, 38 clients received a “Focal Evaluation” for AOD issues, all referred by the court system. Of these evaluations, clients had to wait to be seen an average of 19.84 days (range of 3-35). On average it took 53.26 days from the time of the referral until the evaluation was provided to the courts (range 27-125).

Demographics

Adult County of Residence

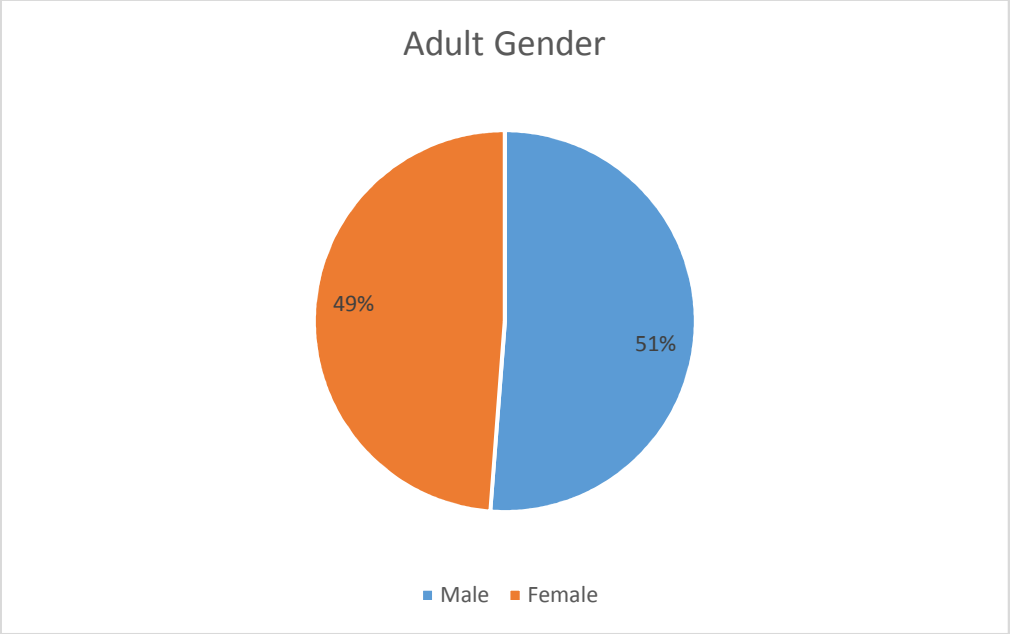

Adult Race

Marital Status

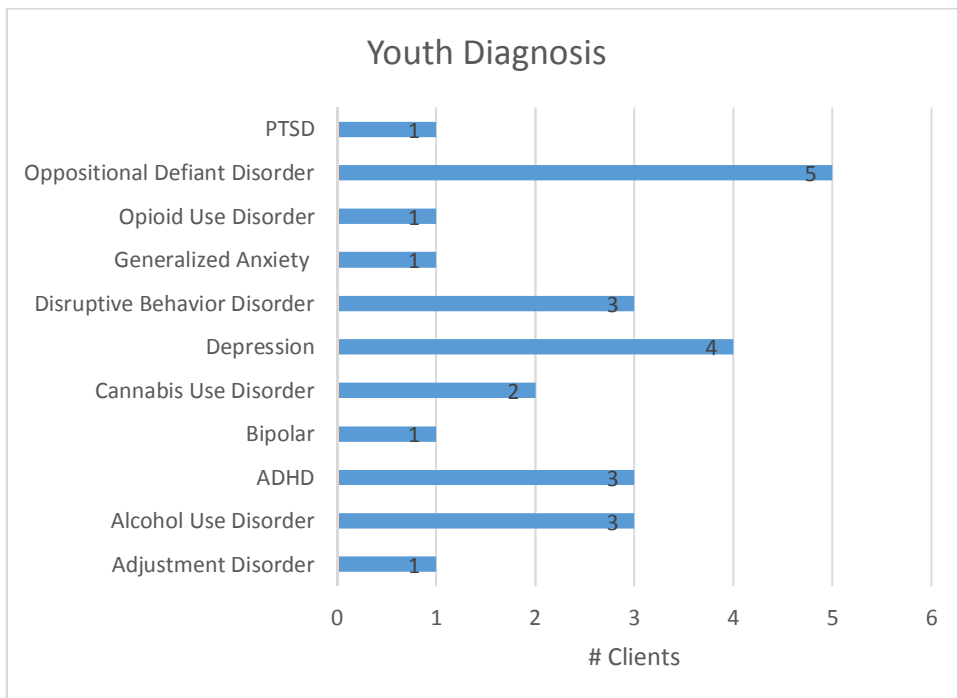

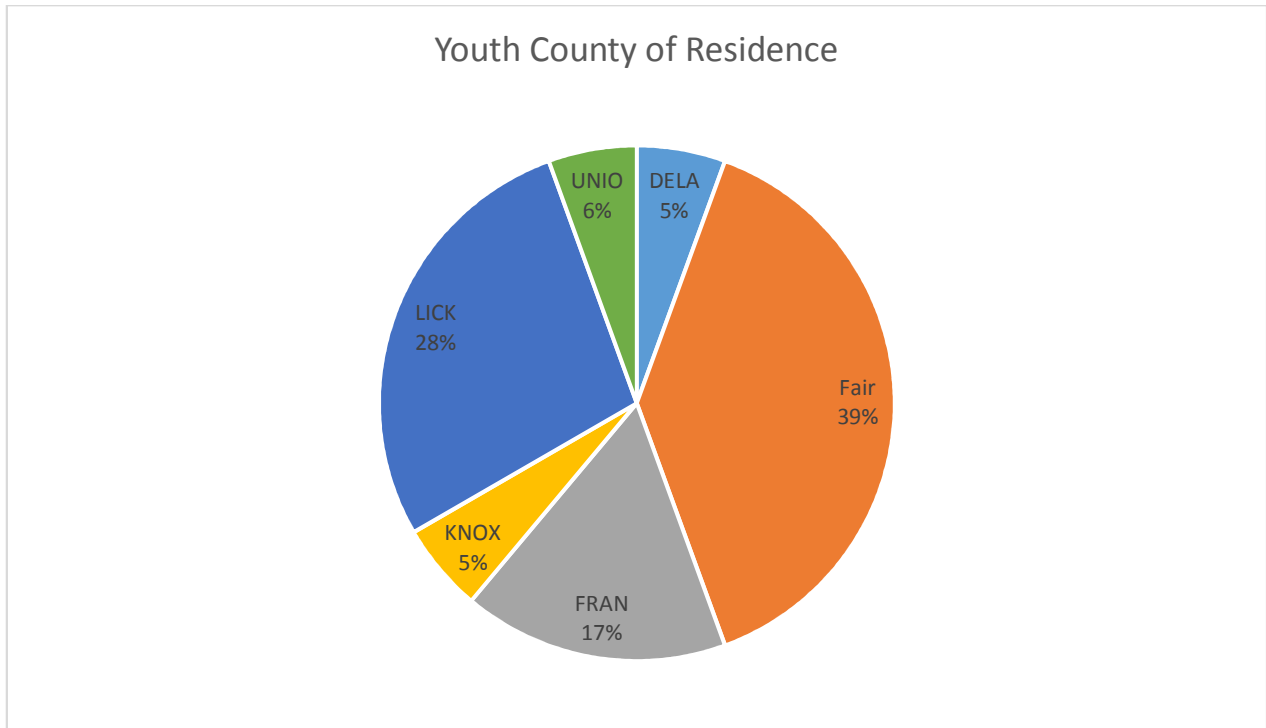

The Mean age for adults was 36.04 (Median=34), with a range of 18-68.

Note that a person may have more than one diagnosis.

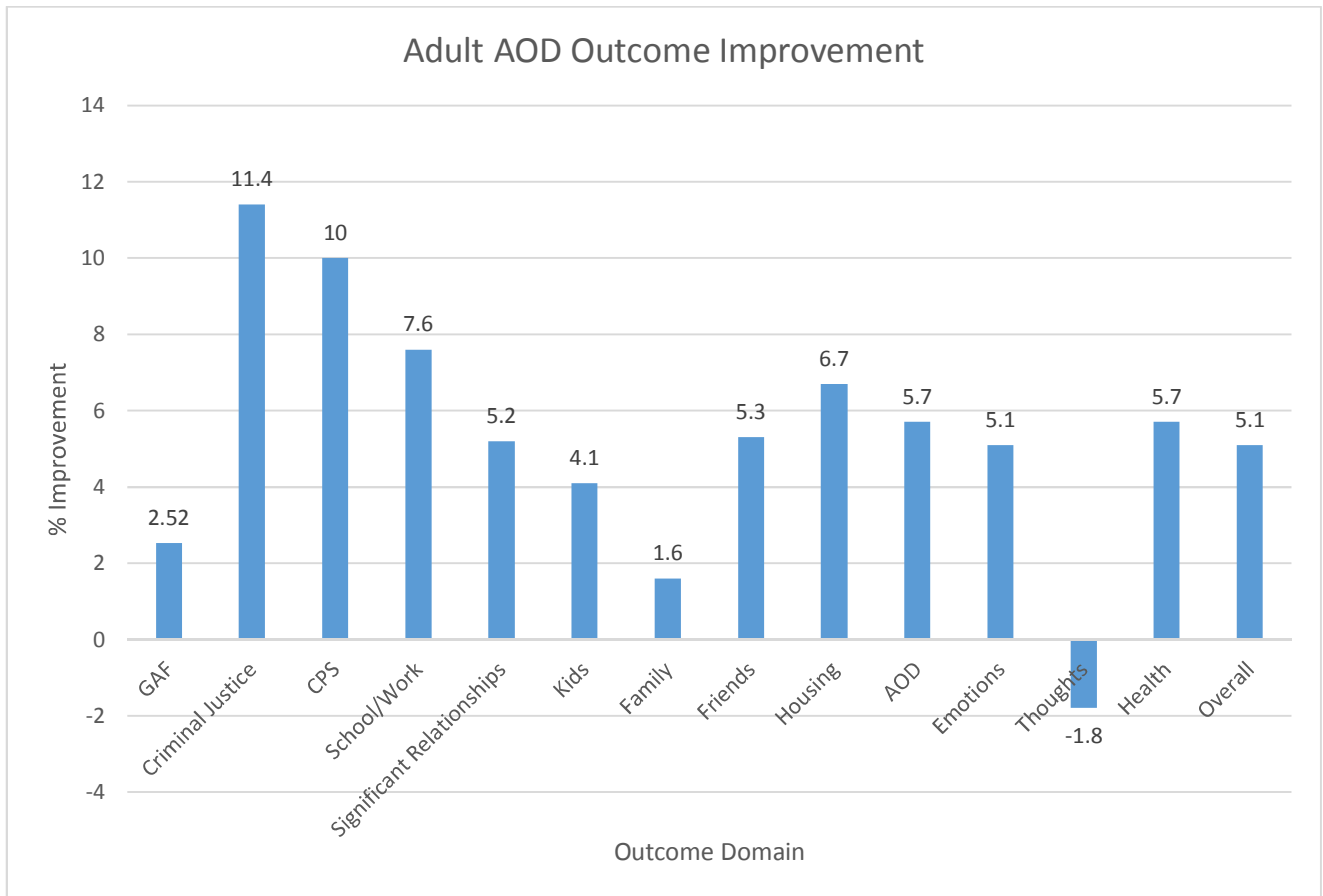

For youth, the average age was 18.35 by the time of discharge, with 88% of clients being White, with one Black and one "Other Race" client.

Note that a person may have more than one diagnosis.

Outcome Data

Of 222 Adult clients that completed a Pre/Post Outcome Measure over a period of 180 days on average, clients reported an “overall” improvement in functioning of 5.1%. The outcome results can be seen below:

An insufficient number of youth completed Pre/Post Outcome instruments to be able to report (n=2).
